Total Wall EIFS and Stucco Systems

AMERICA'S EIFS AND STUCCO COMPANY!

The **Total SL Gold PM** system is a seamless Hard Coat Class PM system without the need for control joints for spans under 50 lineal feet and is applied over virtually any substrate.

It is used in both commercial and residential applications.

This system is eligible for a Total Wall system warranty when installed by a Total Wall qualified applicator.

Layer 1- Substrate

Approved substrates are masonry: brick, concrete block, concrete and stucco. Approved sheathings are: exterior gypsum, plywood, cement board, OSB, siliconized core gypsum sheathing, or as otherwise approved by Total Wall in writing.

Layer 2- Moisture Barrier

The use of an approved moisture barrier is required for all residential frame construction with moisture sensitive sheathing or framing. Approved self-drainable moisture barriers are Tyvek StuccoWrap, RainDrop, Weather Trek, and as otherwise approved by Total Wall in writing.

Layer 3- Rigid Insulation

Rigid insulation board must be 2 lb per cubic foot density Extruded Polystyrene (XPS) board meeting ASTM C578 Type IV requirements, have an R-value of 5.0 per inch, be in either 4' x 8' or 2' x 8' sheets and have a thickness not less than 1" and not greater than 4".

Layer 4- Fasteners, Reinforcing Mesh, SL Gold Base Coat and Trim Accessories (opt)

This system is mechanically fastened. Standard 4 oz Mesh, Enhanced 6 oz Mesh and Intermediate 11 oz mesh are the different grades of mesh available for use with this system. Total SL Gold Base coat is the only approved base coat for use with this system. Trim accessories are optional.

Layer 5- Finish Coat

Total Wall 100% acrylic based, synthetic finishes are very high quality and are available in Premier and Journeyman grades, in eight different textures. Total Wall pre-mixed synthetic finishes can be tinted to match virtually any color.
